TRAINING BIBLICAL VOTERS
www.BiblicalVoter.com

We are focused on Elections. In every election the church or community group participes with one or more of the following: Biblical voter registration drives, ballot-gathering, Biblical or Candidate Election Forums, distributing or linking to biblical voter guides, etc.

The Goal is to GET OUT THE VOTE! (GOTV)

- That means helping Christians to be informed on how to vote biblically following the election checklist bookmark – free download. Do everything on the list and check it off as you complete each task.

- How to cast a vote is also important. There are two ways; either a mail-in ballot or go directly to your polling location.

- Polling Location: We recommend going to your polling location and/or surrendering your absentee mail-in ballot at your local polling location and voting on the spot. This prevents more opportunity for fraud.

- Absentee Mail-In Ballot: If you are using an absentee mail-in ballot be sure that it is clean and clearly marked or it will be rewritten by someone you don't know at the Registrar of Voters office. In addition, under the new

election laws, you may bring your ballot to church and, if you have a participating church, may turn in your ballot to a designated gatherer.

- Training in Ballot Gathering: Available on on www.BiblicalVoter.com under video "Freedom of Preach." It is important participating churches make sure ballots are properly gathered and turned into the Registrar of Voters office in a timely manner. Personal church training is available upon request.
