Agenda 2, video notes

Agustin Blazque

I did not believe that Communism would or could take over Cuba. That will not happen here. No one would even dream that it could happen.

I see that same thing happening in the United States that is happening now. I am very uncomfortable with this knowledge for I know what the end of it is. Waiting too long and there will be nothing the American people can do to keep Communism out. When this happens, they will lose everything they own, everything they know, and you cannot even think that you will be safe in your own house. They will come and take everything, your guns, your way of life, everything. You will be a pawn of the state.

Trevor Loudon

If America goes down economically, then the military goes down. If America goes down militarily we all go down. The free world is finished. It will be finished for a very long, long time.

Kevin Swanson

Everything practically is in a self-destruct mode.

Lt. Gen. Jerry Boykin

We are in the most critical period since the Revolutionary War.

Dr. Hormoz Shariat

If you are not alert you are not awake with what is happening.

Andy Miller

I would just as soon see this country on its knees than have everything "equalized."

G. Edward Griffin

That concept, collectivism, big government, is a magnet for the predator class.

Robin Eubanks

The plans is to have everything in place by 2020

Dr. David Noebel

If we are that dumb and we allow this to happen, we deserve everything we are going to get. Because we are going to get it right in the neck.

Dr. Alan Keys

We are headed into a nightmare that will make all of the atrocities of the twentieth century be a dress rehearsal.

David McAlvany

When people are afraid they ask government to do more not less.

Brian Sussman

Their theory is designed to scare the people to believe there is a crisis where there is no crisis. There is no crisis.

Benjamin Pinkevich

We are losing more and more freedom because we are afraid.

Curtis Bowers

(The maker of this DVD. His narration will appear in these notes in italics)

The left wants you to believe that catastrophe is just around the corner and the only way to avoid it is to do EXACTLY what they say. Everything they do is just a Trojan horse of deceit. Carefully crafted to hide their real agenda of finishing America off.

Jim Simpson

We have been their main stumbling block to world Communism since it first lifted its ugly head.

Curtis Bowers

From the promotion of Islam to the propaganda of climate change. From the deceit of common core to the manufactured economic crisis. From their manipulation of the evangelical church to the unsustainable debt burden. This DVD will show that the issues are simply being used as a smokescreen to hide the purposeful and premeditated treasonous attacks on the foundations of our freedoms.

Star Parker

The war on religion has just purged us from being able to determine right from wrong.

Dr. Peter Hammond

You know what Alexander Solzhenitsyn said about Russia? How the Communist took over Russia, "We forgot God."

Curtis Bowers

Their stated agenda carved in stone on a monument in Georgia and outlined in documents placed in the ark of hope is to eliminate 6.5 billion people by century's end. They will succeed if we do not stop them.

Dr. Peter Hammond

This is not just a fight for the United States of America, this is a fight for civilization itself.

Brian Sussman

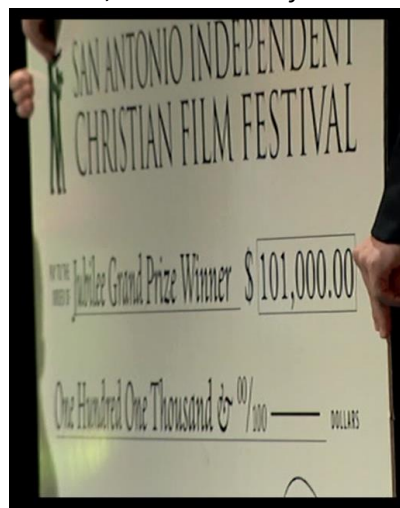

It is everything Karl Marx dreamed of before our very eyes.

Dr. Alan Keys

I think they have pushed us over the cliff. America isn't going to fall, we are falling.

Curtis Bowers

I had no idea things I would discover about why America was collapsing from within would motivate me to take my life's savings and make a film and I had never made a film before. My children prayed for the film daily and that the finished film would win a cash prize. I thought it was a tall order, but it was not for God.

If things are always moving in one direction in a unified fashion, there is a reason why. Consistency has never been a virtue of ignorance.

During one of the many presentations of Agenda one person stood up and said that wanted to congratulate us on our research. I want to tell you something. I am a professor at this college, I am a Communist, and we will win because we are taking all of your children. Then he walked out.

A woman who was crying asked; How could he be at our community college?

I replied to her, mam, he is in every school in America.

To win the battle of subversion it is imperative to know one thing, your enemy. A radical of the 1960 gave the key. The issue is never the issue. The issue is always the revolution.

They use issues against us to destroy.

WHO IS OUR ENEMY

Curtis Bowers

*2500 hundred years ago Sun Su wrote:
If you know yourself you will the battle 50% of
the time.
If you know your enemy you will win the battle
50% of the time.
But, if you know yourself **AND** your enemy you
will win the battle 100% of the time*

Lt. Gen. Jerry Boykin

If you do not know who we are as a nation, our identity, you do not know our history, you do not really don't understand the price that has been paid, and then anybody can lead you astray.

Curtis Bowers

Once we understand who we are it will be easy to identify our enemies they are those that are attacking the foundations we stand upon.

Before the last 100 years of subversion, who were we? What made America the greatest country of all time?

God established three institutions,

Family

Church

State

What made America great was that we followed God's instructions on how those three institutions should be run. Every attack today is to destroy those institutions and distinctions.

13:15

Curtis Bowers

Communist manifesto's written goal is to destroy the family, church, and the state. All three of God's institutions.

The goal is to transfer all of God's authority from the family and church to the state. Those who work this effort are collectivist.

G. Edward Griffin

Collectivism is a broad terminology that includes Communism, Fascism, Nazism, Socialism, left wing ism, liberalism. All of these different words are different flavors of collectivism. Collectivism is the concept is the state is all important. The individual must be sacrificed for the greater good of the greater number.

Curtis Bowers

The end of collectivism is a system that takes care its citizens from the cradle to the grave and that is Marxism.

The people who do not understand this are the people who believe that you can have big government without totalitarian methods and history has shown us you cannot.

David McAlvany

From each according to his ability and to each according to his need. That was the goal, however, the problem is, and no one steps down. Once you have the power no one steps down. Reality, it is just a picture, no one ever intended in stepping down.

G. Edward Griffin

It does not matter which government you see, the national government in Washington DC or your local city hall. Who are those people sitting up there in those big chairs while the little people come in with their complaints? The big chair says, "your time is up, sit down." Who are those people? Collectivists. They have been drawn to the power, they enjoy the power. They are predators.

Curtis Bowers

Big government will never work because no one is capable of being in charge. We think Hitler and Stalin were unique, but the simple truth is every single person on the earth would have done the exact same thing if they believed their philosophies and were not accountable to any higher authority.

Ideas have consequences. What you believe affects what you will do. They were not uniquely evil, just sinful men like the rest of us. However, they has exceptionally bad ideas. The same ones we are playing with today.

G. Edward Griffin

Individualism was just the opposite. The purpose of the state was not to govern the individual but to protect the individual. The individual was supreme and the state was the servant of the individual.

Dr. Hormoz Shariat

In America, valuing each person, this is Biblical, it comes from Christianity. You go to Communist or Islamic countries, life there is not valuable. You kill, so what!

Curtis Bowers

You can put it in whatever package you want. The mantra of age that is accepted worldwide, to each, according to his need. From each, according to his ability, to each according to his need. That is Communism.

Why didn't Communism die?

Pavel Stroilov

It is not the case the cold war is over, or to put it another way, it's not the case that the West has won the cold war. The cold war was not a military confrontation between two military alliances. It was a war of ideologies. It was a war of utopian totalitarian socialism versus democracy, market economy, and freedom.

I interviewed a New Zealander a few years ago who infiltrated the New Zealand's Communist party and was sent to Lenin's Institute for higher learning in 1983. The school for Communists from all over the world. 6,000 students at any one time in attendance, some on seven year courses. They were taught that there would be a massive opening to the west. The Communist did much better in times of détente than they did in conflict. They were going to open up to the west, down play Communism, and they were going to change the system.

G. Edward Griffin

One of the tenants laid down by Lenin, was that you have to pretend to be defeated. Communism or Leninism have gone back and forth between the friend / enemy mode many times throughout history. This was to lure the opposition into a false sense of security.

Pavel Stroilov

The way you finish ideological wars, the way you destroy an ideology, and we have historical precedent for that, that happened with the Nazis. We should have had the cold war over 20 years ago, yes, but for that we would need a Nuremberg style trial of Communism. All the crimes exposed and all the archives opened, the judgement of history passed. That didn't happen.

Trevor Loudon

You have to realize when Nazi Germany was defeated in World War 2 Americans went in and denazified the country. Anybody that was a Nazi was taken out of position of power. This totally changed the whole political climate. Russia was never de-KGB'd. The KGB was left in place and now it is stronger than it has ever been before. You see their puppet, Putin reinstating the Soviet empire now.

G. Edward Griffin

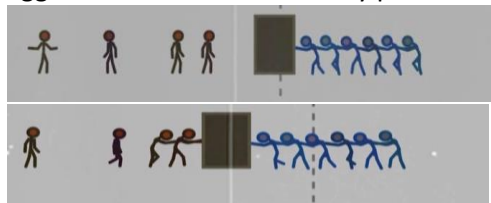

They may have changed their name, took their hat and turned it around. It is the same hat on the same heads on the same Leninists.

Pavel Stoilov

The trial of Communism should have finished that. It didn't happen. And therefore, we are not out of that crisis. That is the reason why we have Putin. That is the reason why you have Obama. It is still going on. The cold war is going on. It is going on in the streets of Moscow now; it's going on in the streets of Tehran. It's going on really in America as well.

What is their strategy?

Let me give you an example. They have a particular program they want to implement. They go in and ask for everything, and they are aggressive about it. Then they push ahead.

Opposition? No, push more.

Much resistance, stop, wait, evaluate. Maybe we do not want it all. Let's compromise. Let's get along. I will give up some of what I asked for aren't you willing to give up a bit?

Time passes, resistance gone, begin pushing again.

Trevor Loudon

Classis example is Obama Care. Designed 100% by democratic socialists of America. A Marxist group pushed on America by Quintin Young. Quinton Young is a 40 year member of the Communist Party of America.

They got the Affordable Healthcare Act pushed thru in 2009. It was not single payer health care, it was not 100% socialized health care, which is what they are after. They got as much as they could get. Now if you read their publications they are boasting, it is going to fail. It is not going to do the job. It is going to let people down. Then they will blame the greedy insurance companies and the nasty doctors and then they are going to push head on for single payer health care.

They are using Lenin, Hagggle, get what you can, get more, compromise, when the opposition backs off, then go in for the next step. Keep doing, and doing, and doing until you get what you want.

Curtis Bowers

That strategy is what they use on every issue every time. We will see a single payer system implemented by our government in the near future. As Obama Care collapses, as it was designed to, it will step up to fix the problem with high premiums and disgruntled people with more government. We never seem to learn we keep compromising, giving up ground, and keep laying strictly defense. Which is why we always lose.

Economic Espionage

David McAlvany

We are a dependent state and when you go to the voting booth you get to vote your self-interest. A real concern when you don't have a voting base with skin in the game, with as much to lose as to gain.

49% of Americans are dependents of the Federal Government

What we know from history, is when you tip the scale at 51%, now you are talking about a license to steal. You are talking about that 51% tyranny that Tocqueville was so concerned about. The Democracy, for all its benefits, the challenge is you get to the point where you have a 51% tyranny.

Star Parker

I think it is underappreciated in our society just how extensively damaged the welfare state is. When you look into the heart of the liberal and what they do to our society in the name of social justice or the name of equality, it is evil will.

Curtis Bowers

When a government is working as hard as possible to create dependency in their citizens, you know that their real aim is to eliminate freedom. No man is truly free that is unable to provide for himself.

G. Edward Griffin

The dollar in America today, it takes 98 of them, to buy what one dollar would buy in 1913 when the Federal Reserve System was enacted into law. That is theft.

Curtis Bowers

The fifth plank of the Communist Manifesto is to create a Central Bank. Ours was created in 1913 and is called the Federal Reserve.

You hear Federal Reserve, and most Americans think that is part of the Federal Government. The Federal Reserve is not part of the government. The Federal Reserve is a private bank.

Trevor Loudon

It is not a government institution. It is as federal as Federal Express.

Curtis Bowers

I am sure that the individuals involved would fit nicely into my chart, if we knew their names. But we have allowed them to remain anonymous. They also say that we do not have the authority to audit them to see how much of our money they have printed. With each bill they print, inflation soars. At the current rate of inflation that most say is very modest, things go up ten times every fifty years.

G. Edward Griffin

Inflation is a hidden tax. This inflation steals from people who have saved. When they finally retire at the end of a lifespan, all this money they have put aside does not buy anything anymore.

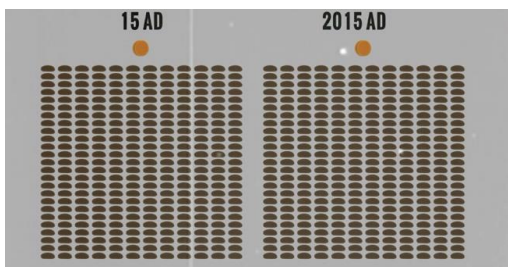

Curtis Bowers

Houses have not gotten more expensive, the dollar has just lost 97% of its value over the last hundred years.

One ounce of gold 2000 years ago would buy 300 loaves of bread.

One ounce of gold today will buy 300 loaves of bread.

Prices rarely change.

What has happened is the Federal Reserve has been quietly stealing our wealth while we believe their lie that inflation is normal.

Inflation was not normal for the first 6000 years of history. Inflation magically started in America in 1913.

Our economic system today is based on Keynesian economics.

“By a continuing process of inflation, governments can confiscate secretly and unobserved an important part of the wealth of their citizens. Lenin was certainly right. There is no subtler, no surer means of overturning the existing basis of society than to debauch its currency. The process engages all the hidden forces of economic law on the side of destruction, and does it in a manner which not one man in a million is able to diagnose.”

JOHN MAYNARD KEYNES, FABIAN SOCIALIST

Curtis Bowers

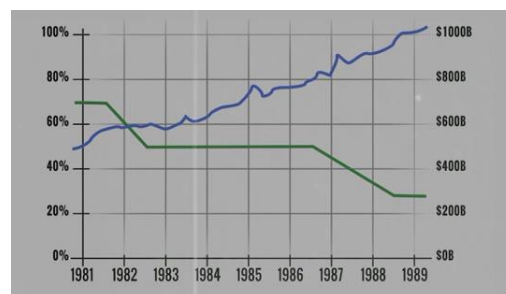

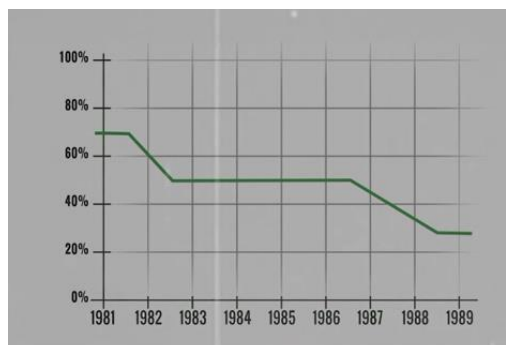

The second plank of the Communist Manifesto is to implement a graduated income tax. Ours was placed into law in 1914.

Dr. Alan Keys

If you establish a tax based on the government’s power to determine what percent of your income it is going to take away from you, how much of your income does it control? The government controls 100% of your income. If that is the situation, you are no longer a free person, you are a slave, and you live on an allowance from your government.

Curtis Bowers

When Ronald Reagan came into office, the top tax rate was 70%. When he left office he had cut it down to 27%.

During the same time the revenue to the government doubled.

The lie on the left is increasing taxes on the rich will help stimulate the economy. Nothing could be further from the truth. It is all a strategic part of the plan to create more dependency.

“Taxation, with its offspring inflation, is the vital weapon to displace the system of free enterprise.”

**VLADIMIR LENIN
FOUNDER OF THE SOVIET UNION**

People wonder why our free enterprise system is not working any more. It is because inflation, taxation, and regulation is effectively killing its productivity and its ability to create wealth. No people talk about redistributing the wealth we have instead of creating more. Every person could be a millionaire. Wealth is created by hard work, ingenuity, and creativity. The lie that wealth is a fixed pie is perpetuated by those that seek to pit the have nots against the haves.

If you add up all the debts and obligations that the government has placed on us, every single person owes over \$650,000.00 which obviously is not ever going to be paid back.

David McAlvany

That is the nature of bankruptcy. How did you go bankrupt? Very slowly, then all at once.

Curtis Bowers

God said "The borrower is servant to the lender." Artificially low interest rates have encouraged everyone to be buried in debt and enslaved to the banks.

When you penalized productivity and reward sloth you knew exactly what you were doing. This makes us poor as a nation, which will create more dependency. But the cycle of history does not stop there.

David McAlvany

Then there is that move towards dictatorship which is the stage that follows dependency. This is where a vast majority of the people are dependent upon the state and the only way to continue to deliver what the vast majority expect is via the strong arm of the government.

Educational disinformation

32:00

Lt. Gen. Jerry Boykin

How do you change society? You go after the next generation. You do that through the educational system. That is exactly what has happened to us. The Marxist movement in America has done exactly that.

Kevin Swanson

The educational system establishes the direction for the future. It sets the hearts, minds, and perspectives of the next generation. Everybody knows how important it is.

Brian Fischer

If they can control our children and pump their ideology into these young hungry brains they can actually have them prisoners for life.

Robin Eubanks

This is all done under the banner of being internationally competitive, or college ready, or career ready. The euphemisms hide the actual intent.

Curtis Bowers

The father of global education, Robert Muller, was the assistant Secretary General to the United Nations and the creator of the world core curriculum. He said "The goal is to promote growth of the group idea so that group good group understanding, group interrelations and group goodwill will lead to group consciousness."

Note in the chart how his group idea has been pushed by the past several presidents:

It seems it is all the same thing progressing down the same road Nixon, Carter, Bush, Clinton, Bush, and Obama.

The goal, move the children to a collective mindset.

The tenth plank of the Communist Manifesto states: provide a free education by the state for all children, and to combine education with industrial production.

Bill Gates has teamed up with the United Nations to build the model that will have our schools will be a tax paid training ground for corporate America.

Robin Eubanks

Most of this tracks back to those that would benefit financially from a more government centric economy. They are already political players, they do not want to worry about competition.

Curtis Bowers

Not only is competition eliminated but employees are created. The type of employees that would be content to work sixty to seventy hours a week in a dead end corporate job that just paid enough to survive.

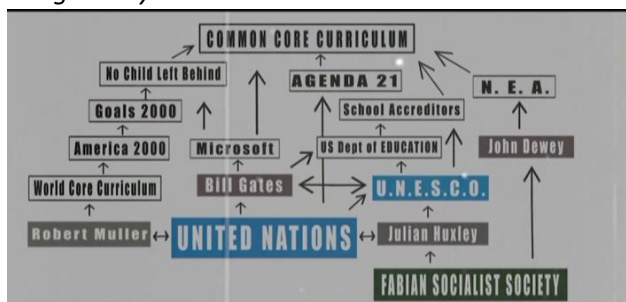

Traditionally, Americans would have no interest in that. They would have wanted to use all the individual talents and abilities God had given them. They want to do a hundred different things in their life. Invent things, start new businesses, change the world, and the elites didn't want any of that so it had to be destroyed.

Robin Eubanks

It is like we are going after Karl Marx vision and at the same time making it impossible. What is necessary to get an amine able voter means the wealth you plan on redistributing is already gone, your just don't know it yet.

Curtis Bowers

Just as I was beginning to dig in I realized I was making a big mistake. The temptation on all these issues is to not accept the reality on how things really are.

The bottom line is the enemies are in control of the schools, so there is no fix. I know you do not want hear that because I do not want to hear

that, but it is true. They want our kids to be useful idiots. They want them to be dependent on the state. That is the goal of the whole thing. So they will repackage, rename, rebrand, the same old thing over and over again. It is intentionally going downhill. We have to grasp this, it is purposeful. We legitimize them by saying that just do not have a good idea and we have a better one. They know exactly what they are doing. They want to create a new world man that is dependent on government for his vary existence. So to even talk about common core debating its good and bad points is playing into their plan of sidetracking all of our energies and efforts on a dead end road. Even without common core, the schools are completely bankrupt and destroying our children. We have seen a decline for seventy straight years without any interruption. As long as the government has a monopoly on education, we will keep getting what we have.

Alan Keys

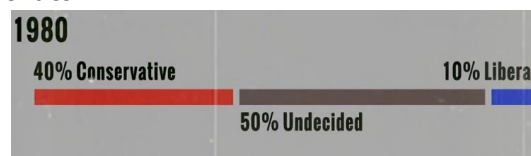

The end result is to make our children, and those educated under that influence, to make them unfit to govern themselves.

Does education affect politics?

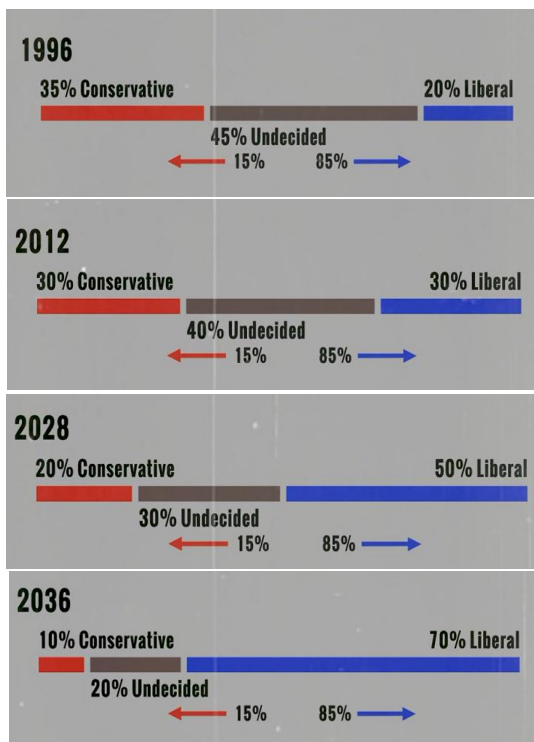

38:18

Curtis Bowers

We wonder why it is difficult to get a good candidate any longer for president of the United States. Let me show you how education effects politics.

They are capturing 85% of our young people each year this is how it plays out.

Curtis Bowers

This is simply demographics. There is no quick fix to change this. 2016 is the last time in my lifetime where it will even be possible to get a conservative president elected.

Extremist assimilation

39:49

Dr. Peter Hammond

On September 11, 2001 when the word came through that the World Trade Center had been hit, Muslims poured out of mosques calling out Allah Akbar. They ripped a pregnant Christian girl to pieces and they went on to kill 9000 Christians that day in Nigeria. Did your newspapers report that?

Brian Fischer

We have delegated to the UN the right to pick the people who will be brought to the United States for refuge.

Andy Miller

We keep opening our doors allowing more in. That is a nightmare that is waiting to happen.

Brian Fischer

What the U.N. has done virtually without exception have selected Muslims to be refugees to America.

Andy Miller

Receiving these refugees is like taking a loan from the Mafia, you will pay all right, and you will pay in spades.

Dr. Hormmoz Shariat

I was born into it, I was raised into it, and lived it. I have experienced Islam in every area of my life. Islam is mandated to take over the world by force. It is commanded. They may deny it but it is in to Koran.

Curtis Bowers

Think about it, Islam does not believe in woman's rights. It is fine for a husband to beat his wife. There is no freedom of speech, any who disagree are executed. Homosexuals are stoned to death, pornography and alcohol are punished by a beating, and yet the left loves their system. A system that against everything they claim to support.

I think that this proves beyond a shadow of a doubt that the left will use anything and use any people group if they think that it will help destroy their two greatest enemies—Christianity and freedom. They no more care about Muslims, the poor, women, blacks, environment, children, than an unborn baby's right to life. The Christian's right to free speech. A balanced budget. It is all a lie. It is 180 degrees opposite of the truth.

Lt. Gen. Jerry Boykin

Only about 16% of Islam is religion. The rest of it is a legal system, a geo political system, a military system, dress code, a moral code. It is a lot of other things but it is not a religion.

Dr. Hormoz Shariat

When Islam is implemented, there is so much brutality against your own people. That is why there is not peace, there is fear! That is what an Islamic country is like.

Dr. Peter Hammond

There are those that say Islam is a peaceful and tolerant religion. If the most violent and intolerant religion can be called peaceful and tolerant, what do we call the Amish and the Mennonites?

Pavel Stroilov

It is a well-documented fact that international terrorism was invented by the Soviets in the first place. You cannot argue against this. I've see all the documents. They were training, financing, and arming all the terrorist. Originally those were left wing terrorists, called normally liberation fronts, liberation movements this kind of things. That was the plan of Yuri Andropov.

Trevor Loudon

1972 Ian Pachapa (sp), head of the Romanian KGB, he later defected to the United States. He had a meeting with Andropov, the head of the Soviet KGB, where they organized the sending of 4,000 Soviet agents into the Islamic world to stir up hatred against Israel and the United States.

Jim Simpson

The Communist saw another wedge opportunity, another way to divide and conquer. This was another way to build armies

of opponents to their main enemy, which was the United States.

42;57

Trevor Loudon

We know the Marxists were infiltrating the American Christian churches eighty – ninety years ago getting into the seminaries. Do you not think that they were not infiltrating the Islamic seminaries of the Middle East?

Curtis Bowers

They realized these people had the same goal of world domination. Let's infiltrate and become the leaders. Let's use these people to accomplish our goal.

Jim Simpson

Most of those people think that they are fighting for Allah. They do not have any idea that they are fighting for Communism.

Dr. Peter Hammond

The AK47 seems to be a symbol of the Muslim terrorist. They did not invent or design the AK47. This is provided to them by the Soviets. In fact, all of the weaponry, whether the MIGs they are flying, and the helicopter gunships they are using to strafe our missionaries and teams in Sudan. It all comes from the Soviet Block and Red China.

Trevor Loudon

The Soviets established and set up and ran the Palestine Liberation Organization. Today, the Taliban in Afghanistan is as much Maoist as it is Muslim.

Curtis Bowers

A few years ago, 2006, Pavel Stroilov's mentor, Alexander Limponinko (sp), who was a Russian KGB agent who defected to the west, was poisoned by Putin by radioactive plutonium 210. Alexander revealed before he died, that the terrorist attacks against Russia had been done

by the KGB, so they could blame it on Muslim terrorist to make it look like they were opposed to radical Islam too. He also reviled before he died, that the number one man in Al-Qaeda right now was trained by the KGB.

Pavel Stroilov

It is a fact that he is a Russian agent. The real reason why Alexander was the first target for assassinations was precisely because he was talking about the connection between Moscow and Islamic Terrorism.

Trevor Loudon

Stanislav Ludiv (sp) was the former deputy head of Russian intelligence. He had said to a friend of mine, "If Islam groups ever lit off an atomic bomb in an American city, don't believe it. It will be us. It will be the Russians using radical Islam as a cover."

Curtis Bowers

If you study modern day terrorism, you will realize immediately the leaders of Islam are in it for the same reasons Communist leaders are Communists, for power and control. Islamic leaders are not blowing themselves up for the cause any more than Communist leaders are sharing the obscene wealth they have stolen from the working class. Communism and Islam are twins.

Dr. Hormoz Shariat

Even people in the government, most of them, their goal is not Islam, their goal is to keep the power at any cost.

Trevor Loudon

You might say that when they win that the Communist and Islamist will fight among themselves over our bodies, but that is a little bit too late for us.

Evangelical subversion

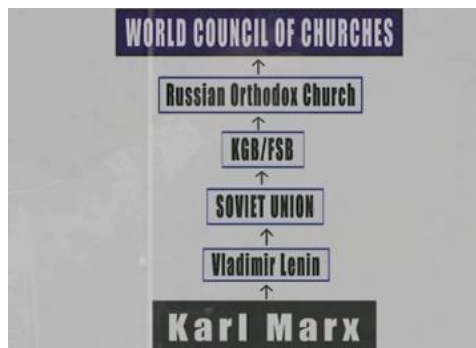

45:56

Dr. Peter Hammond

Missionaries were being machine-gunned on the road, Red Cross ambulance workers were being killed. What was absolutely scandalous, was that this was being funded by the Soviet Union and Red China, but through the World Council of Churches. The World Council of Churches was taking money from members from National Council of Churches in American and putting that money into a program to combat racism. Nice name, but it is funding terrorism. They were murdering missionaries and that was what we were fighting against.

Trevor Loudon

The World Council of Churches used to be known as the Communist Party at Praia. A centralized body controlled once by the Soviet Union now dominated by the Russian Orthodox Church, which is totally controlled by the KGB, and it has been for years. Do you think Russia, under Stalin, he revived the Russian Orthodox Church. Do you think he revived the church and not controlled it? This is not about atheists living in an atheist system, dedicated to the destruction of religion. They revived the Russian Orthodox Church because they knew they could use it as a tool and the KGB direction to influence churches all over the world.

48:10

Dr. Carol M. Swain

The church has become an enemy of God because it has been infiltrated with people that have degrees from elite institutions. These are people that have come into the church, but never were believers. There are some professors in divinity schools and seminaries that take delight in destroying the faith of innocent young people.

Curtis Bowers

Christianity has always been the main target. They knew that with a strong Christian church, their plans for a one world government requires a one world religion to succeed would never be possible.

4902

Dr. Alan Keys

People that are intent on despotism don't want Christianity around. The surest sign that the elites in our country are up to no good, just as the founders of our country knew, is that they are trying to get rid of Christianity. Christianity is what encourages people, emboldens people to live according to good conscience, acknowledging God. To stand firm in the right.

Curtis Bowers

Step one was to remove God's word, the absolute authority and standard of the church.

Congressman Steve King

It is as if the uncomfortable things that hold us accountable have slowly been scrubbed from the message from the pulpit. What was sin 2000 years ago is sin today. That is a message that we need to hear from the pulpit and I do not hear it that much.

Curtis Bowers

Research shows that a majority of Americas do not believe any more that the Bible is God's word. But a more amazing testimony to the left

is the vast majorities of seminaries in America don't either.

Pastor Joe Schimmel

You realize that you can influence churches you can influence millions of people. A lot of these people have had an end game in view and part of the endgame is seeking to enlist the church as pawns in their game.

Step two was to force real Christianity inside the four walls of the church while sidetracking those that were just religious with do-gooder causes.

Dr. Hormoz Shariati

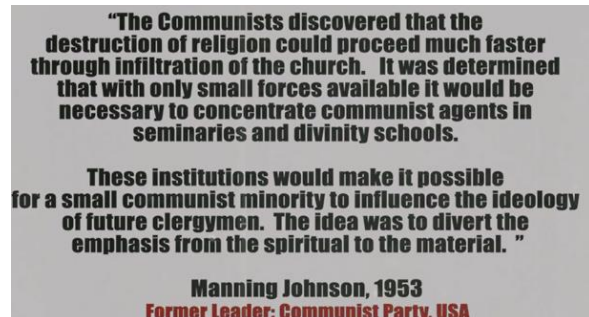

We Christians in the west are not even aware of how much oppression we have in the United States. We are persecuted and we do not know it. They have told us Christians, "You can't do this." And we reply, "Yes sir, we won't." "You can't witness at your work." "Yes sir, I won't." You can gather in your churches on Sunday and worship the best you can and then go home. We have accepted that type of Christianity. We have accepted that we cannot and will not influence our society or the government. We have accepted those limitations that the enemy has put on us. We have withdrawn into ourselves without even realizing it.

Dr. Alan Keys

Something that is obscene is something that should not be brought into public. When are Americans, particularly people of faith, going to realize over the course of the last sixty years we have allowed them to redefine the world so that Jesus is obscene? So that God is obscene. The Ten Commandments are obscene. Kids that wear a t shirt that says Jesus saves, are kicked out of school. People wearing F clothing all over their clothing can wander all over school.

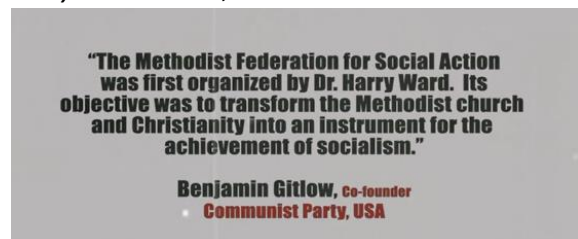

Curtis Bowers

As I dug in to find out this would happen, I came across testimony in the Congressional record in 1953. Manny Johnson, who was a top Communist official, testified "quote;

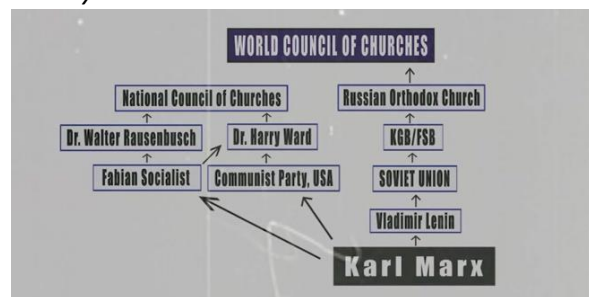

Curtis Bowers

The testimony continued with Benjamin Gitlow who was one of the founders of the Communist Party USA. Quote;

Curtis Bowers

Dr. Harry Ward was not only a Communist but was also a member of the Fabian Socialist Society.

Pastor Joe Schimmel

Most Christians these days are tragically Biblically illiterate. Accepting anything coming down the pipe that has Jesus stamped on it, but it is not the agenda of the Jesus of the Bible. Basically it is a satanic agenda that is seeking to

displace Jesus and exult the worship of man and creation over the creator.

Curtis Bowers

The Communist goal was to turn their number one enemy into their greatest asset. That monumental task is almost complete. They are turning the evangelical church into a counterfeit that worships a false god, one that they have created that is only love, with a false gospel that is a do-gooder work salvation instead of Christ alone. Also, a false mission, is saving the planet, instead of fulfilling the Great commission.

Tom DeWeese

Go back to the fall of the Soviet Union. If you looked at the world from the Soviet side and see there is only one super power left, the United States of America. America, is the only country on earth that is built on the ideals of limited government, free enterprise, individual liberty, and private property rights. Now you have this one super power that is completely opposed to everything you believe in, what do you do? The word came down to harmonize the United States into the rest of the world. So the question is, what would get the United States to throw their liberties on a bonfire like an old fashioned book burning? Environmental Armageddon became the choice, you have to save the planet. That became the mantra and Americans bought it hook line and sinker. The environmental movement became the most popular movement in the country and people were willing to be led in any direction if it meant protecting the environment. That is pretty much how we got there.

Environmental brainwashing

Dr. James Wanliss

We have to do something, they say. We are destroying the planet, the earth has a fever. If it were true would be a legitimate argument.

But if you are screaming fire in a crowded theater, then it is a wicked argument to make if there is no fire at all, you are just trying to move people.

Curtis Bowers

There are three core claims that are prospering up the entire movement:

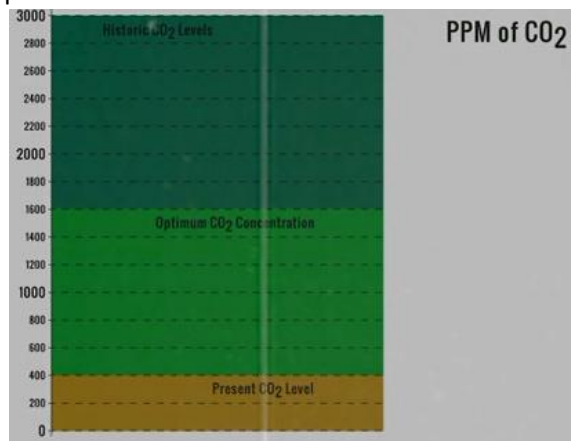

Claim #1 Carbon dioxide is a pollutant.

Brian Sussman

In Michigan they have done some wonderful studies at the university level. The study illustrated that if you increase carbon dioxide plant life grows wildly.

Dr. Patrick Moore

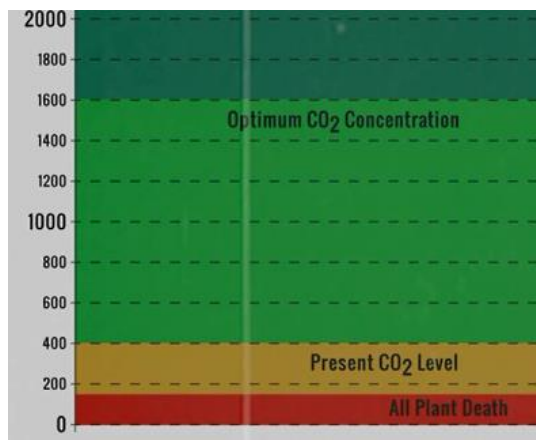

If you Google optimum CO² concentration for plant growth, you will find it is four times the present level.

We are not at a high point to day, we are at a low point.

Ancient days, foliage was all over the planet.

Carbon pollution is now a common term people are using. When in fact, if the CO₂ fell below 150ppm in the global atmosphere, all the plants would die.

Then what would we eat? There would not be anything left but rocks at that point.

Claim #2 Global warming is bad.

Dr. Patrick Moore

Frost and ice are the enemy of life. You come from the tropics into the temperate zone then to the arctic. You lose 99% of species biodiversity.

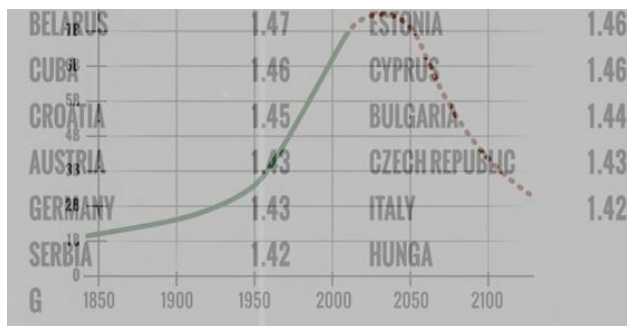

Dr. E. Calvin Beisner

What this means, it is quite the opposite of what the alarmist say, global warming won't lead to more extinctions, it will lead to protecting more species from extinction.

Claim #3 The world is overpopulated.

Curtis Bowers

Over 115 countries and territories are dying off by not having the 2.1 children that is necessary for a country to survive. Population had increased in recent years because of modern medicine and our environment has become so much cleaner. . The world could easily hold 100 billion people. However, it will never even reach 10 billion. As soon as this generation of elderly begin to die off, population will decline for as far as the demographer's eye can see.

Brian Fischer

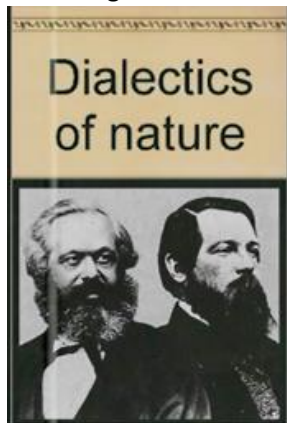

You could move the entire population of the globe to the state of Texas. Use a third of it for living space, a third for factories and workplaces, and another third for recreation. Then you could leave the entire rest of the world completely uninhabited.

Curtis Bowers

You do not have to dig very deep into the key people and groups involved for it to become crystal clear why they continue to promote these lies.

Brian Sussman

Karl Marx got this entire environment movement rolling and this is well documented. You can go back to 1883

This book was written by Fredrick Engels and Karl Marx.

In the book they talk about global cooling. They were trying to scare people into believing that mankind's pollution was going to put the earth into a free fall temperature wise. The result would be there would be no life whatsoever. Ray Lankaster studied under Karl Mark and

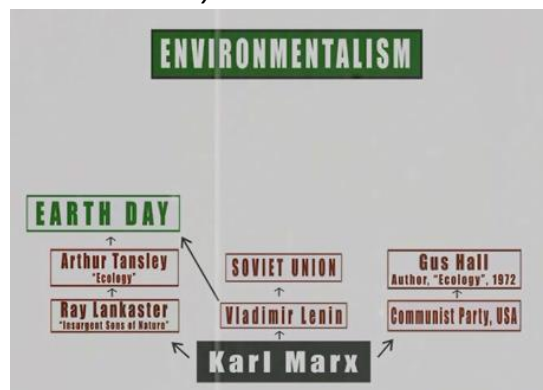

come up with a saying that is now at the heart of the environmental movement.

“Humans are the insurgent’s sons of nature.”

Interestingly, Ray Lankaster had a disciple who was named Arthur Tansley. Tansley coined the term ecology.

Curtis Bowers

Earth day is celebrated on April 22 because that was Vladimir Lenin’s birthday, the founder of the Soviet Union. Gus Hall, who wrote the book Ecology in 1972, was the head of the Communist Party USA.

Brian Sussman

The modern engine of the environmental movement is the United Nations.

Jim Simpson

Remember, the United Nations’ charter was written by Alger Hiss. One of the most notorious spies working in the FDR administration. People do not know that.

1:00:10

Trevor Loudon

When my friend was training in Moscow, the Soviets were open telling all of their students from all over the world the United Nations is our thing, we own it. This is our instrument for policy, this is our baby.

Curtis Bowers

Maurice Strong has headed up the entire environmental program in the United Nations for decades. He is the father of agenda 21.

(Read the details of agenda 21 on line)

<https://sustainabledevelopment.un.org/content/documents/Agenda21.pdf>

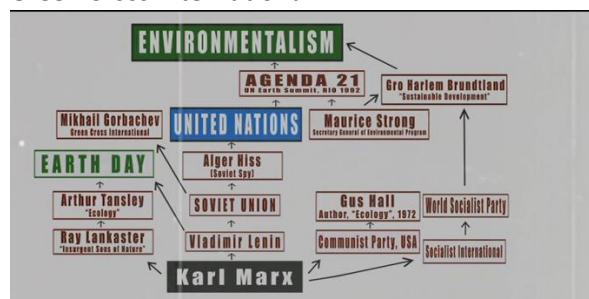

“ Agenda 21 is a blueprint for constructing the New World Order. It is vital people grasp this.”
Maurice Strong

*Maurice Strong picked Gro Harlem Brundtland to write out the world’s environmental agenda in a document called Our Common Future. This is where the term **sustainable development** is used for the first time.*

The icing on the caked is the next player I came across, Mikhail Gorbachev, the murderous Communist dictator. Guess what he did upon immediately stepping down from the Soviet Union? He started an environmental group, Green Cross International.

G. Edward Griffin

Gorbachev has no problem switching gears from the Soviet destroyer of the environment to the United States to the savior of the environment. What is he promoting? Bigger government, more control, more power to the United Nations, less individual freedom, all of the agenda of collectivism. He is doing exactly the same thing in San Francisco that he was doing in Moscow.

Curtis Bowers

Gorbachev is not just some fringe player, he is one of the leaders. When I had found out that the Earth Charter is supposed to be the new ten commandments of the 21 century was written by Mr. Gorbachev. It is clear, environmentism is not just like Communism, it is Communism. You couldn’t make this stuff up.

Dr. Patrick Moore

A lot of people in the Peace movement were more pro Russia than anti American. They brought their neo – Marxism with them into the environmental movement pushing it to the extreme left of the political spectrum. Green Peace and their allies have adopted these agendas which actually if they were brought into effect they would cause more damage to people and the environment then if we just went our conventional way we were on now.

Electoral Manipulation

1:02:28

Trevor Loudon

1995 the Marxist Democratic Socialist of America 7000 members, Communists, they believe in revolution through infiltration. They took over the AFL-CIO. They took over the American labor movement. They put their member, John Sweeney, as president. Now their protégé Richard Trumka runs it for them.

Read about John Sweeney on the internet

<http://www.frontpagemag.com/fpm/111248/union-gangsters-john-sweeney-arnold-ahlert>)

What they did they took over every single labor union in the country and that leverage allowed them to take over the Democratic Party. There is hardly a Democrat at any level in this country from county commission to federal who doesn't owe his job to the unions. For money, for manpower, to get out to vote, even for vote fraud. They mounted a purge at the higher levels of all of the Southern Dixicrats, the

conservative Democrats, moderate Democrats. Now the Marxist, through the unions, have completely taken over the higher reaches of the Democratic Party.

So you have 20,000 card carrying Communists in your country that are dictating the policies of the Democratic Party which is controlling which is controlling the lives of 300,000,000 Americans.

Curtis Bowers

If this is hard to believe, I encourage you to go to the Communist Party USA People's World or the Democratic Socialist of America Democratic Left. You will see every single issue they are promoting today will be the exact issues the Democrats will be putting on the floor of Congress tomorrow.

Trevor Loudon

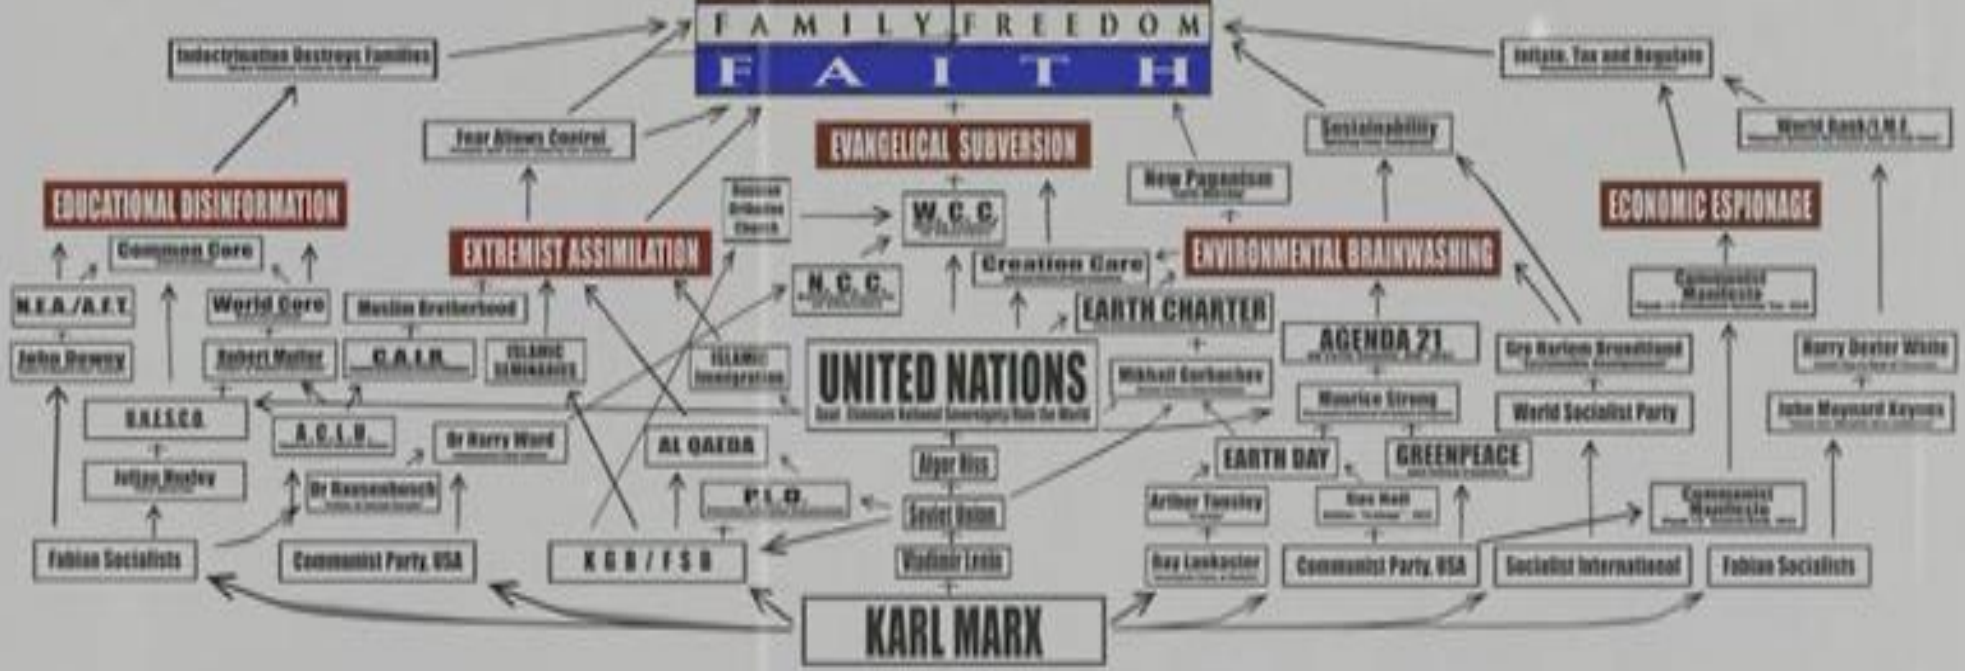

You have all these loyal Democrats out there, good patriotic people, who still think they are voting for Harry Truman and J.F.K. Look, by the standard of today, do you think Harry Truman or J.F.K. would have a chance in today's Democratic Party? Those guys would probably be in the Tea Party today. Yet, their party is run by Communists and these loyal Democrats are still voting on party lines so are voting for Marxist and anti-Americans because they do not understand that their party has been taken over.

Curtis Bowers

It is no longer just an opposing party with different views. It is our enemy working as fast and as furious as they can to finish the quiet revolution that started over 100 years ago. That is why every issue is being used against us as a weapon to destroy.

ONE WORLD GOVERNMENT

A M E R I C A
F A M I L Y F R E E D O M
F A I T H

Trevor Loudon

So the process is simple. The Marxists set our policy that might be socialization of student loans, green jobs, cap and trade, card check, new treaty with Russia, Obamacare, immigration amnesty, campaign to end fracking, behind the gutting of the military, behind the dumming down of our schools. All of these programs are affecting every American every day is being orchestrated by small Marxist groups who have been able to take over the labor movement of this country and by doing that took over the Democratic Party and are now running the country. They are effectively running the country.

Dr. David Noebel

I contend that sooner or later they will use violence. They will use violence when they get to a certain percentage. If they have 70% of the people behind them, they will wipe out their opposition, because the Socialist Communist cannot stand competition.

Trevor Loudon

They have to take America down, then they can have world government, the Communist will then throw off their masks and they will have worldwide Leninism. That is their plan.

Where are we heading?

1:06:14

Benjamin Pinkevich

My pastor spent five years in prison. My cousin's husband, he spent nine years in prison, he was a pastor. They say, no, no, no, you cannot worship in this way. You can worship to your God only as we say you can worship. When government comes into our lifestyle it is really bad for us.

Bob Fu (born and raised in China)

The Chinese has a system called reeducation through labor. Any police officer can issue you a reeducation through labor system that can make any Chinese citizen arbitrarily sent to a labor camp for up to three years without any due process at all.

Dr. Hormoz Shariat

My younger brother was 16 years old and was slightly politically active. He was arrested in the early 80's. They told my mom as she was visiting, "Don't worry, he is doing OK. We are going to release him" They kept him two years until he turned 18. Then one day they called my mom and told her to come and get his body, we killed him. No reason, no court, and then they charged my mom for the bullets that killed my brother. We had spent this much so you must pay this so we can release his body. You have to pay for his execution.

Agustin Blazquez

I don't want to go through this again but I am living it. Every day there is one more provision, one more thing you cannot say,

1:06:14

Curtis Bowers

It is no secret, Totalitarianism is responsible of the slaughter of hundreds of millions of people during the 20th century. What most people do not realize is the environmental movement is setting for the slaughter in this century of billions. Since humans have been labeled the greatest enemy of earth, and the planet has been elevated to god status through the resurrection of ancient paganism, things that were once unthinkable, are now becoming thinkable.

If you do not think there is a religious element to this, they have made an exact replica of the ark of covenant from the Bible, to carry Mr. Gorbachev's earth's charter. People are literally

worshiping it, praying to it, and placing gifts before it. If you think this new paganism will not include human sacrifice, think again. Just during the eight years of Obama, the child sacrifice worldwide through abortion, has exceeded 300,000,000 babies! That is equivalent to the entire population of the United States.

Richard Rothschild

Under the new agenda 21 movement we have been demoted, we are now below the earth. If we are less than the earth, there is no ternary against man that cannot be justified under the premise of protecting the environment.

Brian Sussman

Honest environmentalists will tell you, well a good number would be a few hundred million. (We have seven billion people now in the world) So we ask the environmentalist, how will we get to that number? They look at you with a blank look. Abortion and sterilization will not get us there. I ask, do you want a war? Will a war work for you? How about a plague? Will a plague work for you? How about starvation? Will starvation work for you? The environmentalist think that all of those things will work for them. There is no way you are going to reduce that many people on the planet to where they think it is sustainable. At the same time, the environmentalist is thinking, I am going to be one of the chosen ones who will be allowed to live.

How do we take out Goliath?

Kevin Swanson

The odds are against us. We have seen the trends move to oppose the Christian faith. To oppose family. Freedom. Socialism is on the rise. People are intimidated by the giants. What we need are David's who show up and say "who is this uncircumcised Philistine that defies the living God? Who does this big guy think he is? " Then you go get your 5 stones and launch one into the head of this thing. That is what we need.

David McAlvany

It takes a certain commitment, not an election cycle, but an intergenerational commitment to ideals which if implemented can change society. We have seen it happen, but to the other side. We should expect nothing less than the same kind of time frame and the same kind of pledge. Ours pledge is more deeply held. Our lives, our fortunes, our sacred honor.

Electoral manipulation

Phyllis Schlafly

The Republican Party has an establishment that has given us some losers as candidates. It is time for the grass roots to rise up and reassert itself.

Lt. Gen. Jerry Boykin

As Christians, we have a spiritual moral obligation to vote.

G. Edward Griffin

We have to go into political office. We have to network with each other. We have to dislodge these professional politicians and collectivists.

Phyllis Schlafly

There are people that think that precinct committee men is most important.

Curtis Bowers

We have to take back over the Republican Party. I attended my first county Republican meeting in May of 2006. In two months I was asked to be precinct committee man in my area because the position was empty. Eleven months after I attended my first meeting I received a call one morning from the governor asking me to be the new representative for my district. Did you know that about 35% of the precinct committee men positions are empty nationwide. We need to fill them with real conservatives and take the party back from the ground up.

Economic Espionage

1:14:26

Curtis Bowers

#1, we need to bank locally, at small independent banks. So money stays in our communities to make them stronger and more self-sufficient. Stop using the big banks, we are funding our own destruction with every dollar we give them.

#2, we need to get out of debt. This will make us stronger as individuals which will make us stronger as a nation.

#3, Be productive. Start new businesses. A hundred years ago 70% of Americans owned their own business, today it is less than 20%. Fathers need to come home and start utilizing the incredible potential of their families in creative home businesses.

#4, Mentor youth to be entrepreneurial. That is where the money is and true independence. It eliminates the need to go to college where we are losing all of our children.

#5, Buy USA. Buy USA every time you can. It keeps our money home instead of funding our enemies, it provides jobs for Americans, and it

stops rewarding all the countries of the world that have enslaved their people for profit.

Educational Disinformation**Star Parker**

The worse thing a Christian can do is to send their children to these cesspools we call schools. They are not public schools, they are government run schools. At the end of the day their curriculum is secular humanism and may conflict with what that child may hear on Sunday morning or Wednesday evening at Bible study. Se we set them in an environment of absolute confusion and they have no determinate of determining right from wrong.

Kevin Swanson

Public schools, guarantees, Socialist, Humanist, and Totalitarian will always emerge victorious generation after generation. Until parents step in and say enough, say we are tired of losing, we are not going to play this anymore.

Star Parker

The only way you are going to reverse the trends is to begin to interject a Biblical world view back into the hearts and minds of our youth.

Pastor Joe Schimmel

The Bible says to bring them up under the nurture and admonition of the Lord. The scriptures says we will give an account for everything, especially for the stewardship of our children.

Curtis Bowers

It is a father's responsibility to make sure each of his children understand the world around them so they are not deceived by every clever lie that comes along.

Brian Fischer

I think the direction we ought to move along as a culture is we just disband the entire educational infrastructure. If we are going to collect tax dollars for education, than we say to parents here are the education dollars we have dedicated to your student's education. It is yours and if you want to enroll your child in hoe school, private Christian school, the education dollars follow the student to the school of the parent's choice.

Curtis Bowers

We can no longer sacrifice our children on the altar of convenience.

Extremist Assimilation

#1, We need to demand of our representatives to stop the UN from putting displaced Muslims in America.

Brian Fischer

There are about 56 countries that make up the Islamic conference. If you have a Muslim on one Muslim country that needs a place of refuge, there are 56 other countries where they ought to be able to go.

#2, We must be sharing the gospel with those that are already here in America. Praying that they will get saved and go from being a threat to us to being our brother and sister in Christ.

Dr. Hormoz Shariat

If you want to reach out to Muslims in America, reach them early and reach them with love. In Islam, there is no love. That is the weak point of Islam. If you want to invade Islam, that is their weak point. Allah in Islam has 99 names, not one is love. There is no commandment to love and forgive one another. So when you love people, you love one another, and you love

God, you are piercing the darkest of Islam in a major way.

Environmental Brainwashing**Curtis Bowers**

#1, We need to expose the lies. Everything they preach is a lie. America is the cleanest country in the world and always will be as long as we are free. We have cut our pollution in half since the 1970's even though our population has almost doubled. We aren't the problem, we are the solution.

#2, Hound the federal officials to get us out of the United Nations. The world's environmental agenda is seeping out this Marxist cesspool. We need to about its influence in America before it is too late.

#3, Get involved in protecting private property rights at the local level. Work to remove from office anyone that does not offensively fight for property rights. If you do not have property rights you do not have any rights at all. Property owners have a proven record for doing what is best for their land, far better than any government ever has.

1:21:28

Evangelical Subversion**Pastor Joe Schimmel**

Some of the signs to discern if you are in an apostate church, is the pastor preaching the gospel of Jesus crucified on the cross, buried, resurrected, the gospel of eternal judgment. We do not live long on this earth and that we will stand before God to give an account as to whether we have embraced the grace of God through Christ Jesus. Is he preaching repentance, that you must turn from sin and embrace Christ as your lord and savior? If you do not see that in the fellowship and there is

another agenda afoot, I would say run do not walk to the nearest exit.

Curtis Bowers

We need those of you that are pastors to stand up and lead and think of only one thing, what does God think about what you are doing?

We need those of you that are Christians to share the gospel faithfully. Most people under thirty in America have not even heard the truth about Jesus. 67% of non-Christians have never even been invited to church, this is unacceptable. The complete transformation that takes place with salvation is the only real hope for America.

David McAlvany

Right at home in your own heart in your own mind reform takes place there and then it begins to work its way out. Multiplication that occurred, the revolution that occurred in the first century was a revolution of individual hearts. You began to see this mushroom effect that took place in individual homes because individuals were changed. Then communities changed. The world was radically altered for the good.

Curtis Bowers

I think the day of the sunshine patriot and the fare weather Christian are coming to an end. We are going to have to pick what side we are on. There are not ten different options, only two. We will either be on God's side living a pure life, standing for His laws, regardless of the cost. Or we will be on man's side, which means we will be the enemy of God.

Curtis Bowers

The reality is these evil people who have dismantled this country over the last 100 years, while an all power God has been sitting on his throne. What does that mean? It means that

He has allowed it to happen. That should drop us to our knees in fear. Why would a holy God who hates what they are doing, far worse than what we do, why would He allow them to flourish and succeed in their plans? I think if each one of us looks inside of our own heart, on our knees, before God, and ask, what have I done to remove Your hand of blessing from our country? I know we have all done things that have contributed to the problems we now face. If we repent, if each of us individually comes before God, makes things right, and then makes a firm decision to go in the opposite direction and change things. I know He will bless our efforts. I KNOW He will give us back our country because that is who He is. He is long suffering, He loves his people, He loves truth and righteousness, and He hates what is evil.

Curtis Bowers

I ask you to join with me and my family to commit to pray for our country, for our children and grandchildren, for the generations that are to come. We will do everything we can to turn them back to God's Word, His principals, to His way of doing things, which always brings blessings. I think that as He sees that repentance He sees that true desire to love Him with all our heart mind and strength. He will step in and crush our enemies, those that seem to be in control of almost everything. Just like I told my children at the festival, God does answer prayers. He can save our country.

Dr. Alan Keys

There is nothing that is lost that cannot be found. By the power of God. There is nothing that is hurdling to the abyss that cannot grow wings and soar to the heavens by the power of God. You shall mount up on wings like eagles, you shall run and not be weary. I think that is true of our country. In our case we will not be discovering something, we will be rediscovering. We won't have to wonder about in foul and distant places. We just have to go home. We have to go home to the heart of faith. We have to go home to the true spirit of liberty. We have to go home to that reverent love of God which triumphs over everything then we will find America again. Isn't that beautiful? You come home to God and there you will find America. That is what we have to do now. That is why I am optimistic because God can save our country. But He won't until we ask.

The following pages were added to support the theme of the DVD video. Some people who are reading these notes will never have seen the video so you have never "met" the men and women who spoke on the video. I performed a short Google search to quote something about each speaker. However, some I had no success in finding some speakers on Google.

The following are speakers that are quoted on this DVD. I performed a quick online search and provided what I found along with the associated website from which I copied the information.

Star Parker is one of the names on the short list mentioned when anyone speaks of national black conservative leaders.

Star Parker is the founder and president of the Center for Urban Renewal and Education, a public policy think tank that promotes market-based solutions to fight poverty.

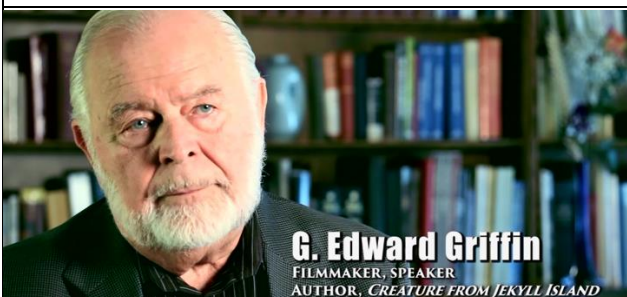

Before involvement in social activism, Star had seven years of first-hand experience in the grip of welfare dependency. After consulting on federal Welfare Reform in the mid-90s, she founded Urban Cure to bring new ideas to policy discussions on how to transition America's poor from government dependency.

Star has a bachelor's degree in Marketing and International Business from Woodbury University and has received numerous awards and commendations for her work on public policy issues.

She regularly consults with both federal and state legislators on market-based strategies to fight poverty; she has spoken on more than 190 colleges and universities about anti-poverty initiatives; has authored several books; and is a nationally syndicated columnist with Creators Syndicate.

Many of national acclaim would agree that Star Parker has established herself as a thoughtful and energetic leader in Washington D.C and her CURE advisory board includes folks of note such as Generals John Ashcroft and Ed Meese; Doctors Ben Carson, Robert P. George, George Gilder, Marvin Olasky and Walter E. Williams.

By helping Russian-Jewish immigrants to Israel, Benjamin Pinkevich is obeying his late grandfather's charge to bless the Jewish people.

El Shalom (Hebrew for "Peace of God") Ministries serves not only Russian-speaking believers in Israel and the U.S., but the nation of Israel in general.

"The main purpose of El Shalom Ministries is to serve the people of Israel and proclaim the peace of God," Benjamin says.

Since 1987 Pastor Joe Schimmel has been equipping Christians with the truth of God's word. His testimony of the transforming power of Jesus Christ in his own life can be seen in the powerful exposé, *They Sold Their Souls for Rock & Roll*, and has been heard during live presentations at churches around the world in which he describes his own deliverance from the bondage and satanic influence of Rock Music at the age of 18. This calling and love for the Lord led Joe to start Good Fight Ministries in 1987 with a mission to reach a lost and dying world with the glorious Gospel of Jesus Christ.

Tom DeWeese has built a career of issuing scary warnings about Agenda 21, a completely voluntary United Nations set of principles for sustainable resource management. Where others see sensible environmental guidelines, DeWeese finds sinister land-grabbing socialist UN initiatives that threaten national sovereignty, private property rights and freedom, not to mention turning our children into one-world government zombies.

Patrick Moore (born 1947) is a Canadian [scientist](#) and former president of [Greenpeace](#) Canada.

He has sharply and publicly differed with many policies of major environmental groups, including [Greenpeace](#) itself on other issues including forestry, biotechnology, aquaculture, and the use of chemicals for many applications.^[1] According to Greenpeace, he is "a paid spokesman for the nuclear industry, the logging industry, and genetic engineering industry" and is an outspoken proponent of nuclear energy and skeptical of sole human responsibility for climate change.

Beisner launched his crusade against environmentalism in 2000 with a document called the "Cornwall Declaration on Environmental Stewardship." It was signed by a number of prominent wingnut fundamentalists including James Dobson, Chuck Colson and R.C. Sproul. The document is essentially an attempt to hijack the theological concept of "stewardship." In Christian theology, stewardship is the concept that the Earth and its resources belong to God, but he has given them to man as gift. Thus, protecting the Earth and the environment is a service to God, or, in other words, humans have stewardship over the Earth and a responsibility to care for it.^[1] This theological concept has historically been used to recruit evangelicals for environmental activism. The Cornwall

Declaration spins this as a denialist tactic:

""First, the document notes that "many people mistakenly view humans as principally consumer and polluters rather than producers and stewards."

Second, Cornwall takes a critical look at the perception that "nature knows best," or that "the earth, untouched by human hands is the ideal."

Third, the declaration points out that while "some environmental concerns are well founded and serious, others are without foundation or greatly exaggerated

Richard Rothschild
COMMISSIONER, CARROLL COUNTY, MD

Commissioner Richard Rothschild was elected to office in 2010. He ran under the mantra of "Less Government," and describes himself as a Constitutional Conservative. In three short years, Richard received nationwide recognition for his leadership and expertise in epic political issues of the 21st century. He has appeared in the Examiner, Baltimore Sun, ABC News, and has been a guest speaker on radio shows throughout America, and has made multiple television appearances in defense of private property rights.

Richard was the first elected official in America to officially terminate a government's membership in Agenda-21 / ICLEI; the first official in Maryland to create a nullification resolution to thwart unconstitutional gun laws, declaring Carroll County to be the nation's first Second Amendment Sanctuary County; and was also first in Maryland to pass an education choice program for parents that choose private, parochial, or home schooling for their children.

Phyllis Schlafly
FOUNDER, EAGLE FORUM

Eagle Forum supports American sovereignty
 We oppose opening U.S. northern and southern borders to a North American Community, or Security and Prosperity Partnership, or any kind of economic integration.
 We oppose all encroachments against American sovereignty through United Nations treaties or conferences that try to impose global taxes, gun registration, energy restrictions, feminist goals, or regulation on our use of oceans.
 We support the deployment of an anti-ballistic missile defense to protect American lives.
